**Santa Cruz, CA** - [Antares Audio Technologies](#), creators of Auto-Tune®, the GRAMMY®-award winning software and the industry standard for vocal production, announce the release of **Auto-Tune EFX+ 10.0** and **Auto-Key 2**.

**Auto-Tune EFX+ 10.0** marks an evolution in functionality of the iconic plug-in. Designed specifically for creative vocal production, **Auto-Tune EFX+ 10.0** delivers vibrant, high-impact effects to any vocal track. **Auto-Tune EFX+ 10.0** features seven powerful new effects (Breath, Reverb, Echo, Chorus, Compress, Low-pass, and EQ) alongside six proven original effects and four new reorderable modular EFX slots for maximum flexibility. The plug-in also features an improved user interface and dozens of fresh custom presets from innovative artists, including Aaron Dessner, Imogen Heap, Bon Iver, and Jess Jackson. **Auto-Tune EFX+ 10.0** is available with a subscription to Auto-Tune Unlimited or Auto-Tune Producer, or as a perpetual license. **Auto-Tune EFX+ 10.0** is also compatible with the new **Auto-Key 2**.

**Auto-Key 2** includes several new features that increase productivity in the studio. New automatic tempo detection joins automatic key and scale detection to easily identify primary musical properties that assist music creators and speed their workflows. Also new in **Auto-Key 2** is the ability to drag and drop audio files (MP3, WAV, FLAC, AIFF) directly into a session. Other improvements include a resizable user interface with light and dark modes and automated key change tracking. **Auto-Key 2** works seamlessly with all current editions of Auto-Tune.

### AUTO-TUNE EFX+ 10.0 FEATURES

- Seven powerful new effects (Breath, Reverb, Echo, Chorus, Compress, Low-pass, and EQ)
- Four new reorderable modular EFX slots
- New Preset Browser with updated artist presets

- Compatibility with Auto-Key 2

### AUTO-KEY 2 FEATURES

- Automatic key, scale, and tempo detection
- Drag-and-drop audio files (MP3, WAV, FLAC, AIFF)
- Send key and scale changes directly to Auto-Tune
- Resizable UI with Light and Dark Modes
- Automated key changes tracking

### ABOUT THE SOFTWARE

### **AUTO-TUNE EFX+ 10.0**

**Auto-Tune EFX+ 10.0** combines the core features of Auto-Tune with the powerful Auto-EFX multi-effects rack. From precision pitch correction to creating harmonies and experimenting with unique vocal effects, **Auto-Tune EFX+ 10.0** is a vocal effects powerhouse designed for creative production.

### **AUTO-KEY 2**

**Auto-Key 2** is an automatic key, scale, and tempo detection plug-in that assists music creators and speeds their Auto-Tune workflows by easily identifying primary musical properties. New automatic tempo detection joins automatic key and scale detection to better identify core musical elements that will assist music creators and speed their workflows. Drag-and-drop functionality and integrated key changes across all Auto-Tune plug-ins means faster workflows.

### **AUTO-TUNE UNLIMITED**

**Auto-Tune Unlimited** is the ultimate vocal production suite and the industry standard for professional vocal tuning. The suite includes everything you need for the entire vocal processing chain, plus every current edition of Auto-Tune, every vocal effects plug-in, free automatic updates to included plug-ins, and step-by-step guides and tutorials.

### **AUTO-TUNE PRODUCER**

**Auto-Tune Producer** delivers a suite of creative tools curated especially for home studio producers and vocalists ready to take their music to the next level. The suite includes the new **Auto-Tune EFX+ 10.0**, the new Auto-Tune Vocal EQ, four essential vocal effects, free automatic updates to included plug-ins, and more.

**About Antares**

Antares Audio Technologies is the creator of Auto-Tune®, the GRAMMY®-award winning vocal production software. As “the sound of the 21st century,” Auto-Tune has revolutionized the music industry and is used in the vast majority of The Billboard Hot 100 tracks. In 2020, Antares released Auto-Tune Unlimited, one of the music industry’s fastest growing and most influential subscription offerings. Antares’ mission is to be the global leader in vocal processing for music, podcasting, gaming, social, and other spoken word applications. The company was founded in 1997 and remains at the cutting edge of technology and culture, with over a million copies of its software sold to date.
